

THE PROJECT

During the Christmas season, Servola transforms into an enchanting Nativity Village: streets, shops and community clubs host nativity scenes created by artisans, schools and families.

The initiative, promoted by Proloco Servola – Škedenj APS and the Nativity Museum (run by the “Associazione Triestina Amici del Presepio APS”), brings together tradition, art and community.

Strolling through the village, visitors can discover both classic and creative nativity scenes, eventually reaching the museum, the heart of the entire route.

It is a unique opportunity to highlight Servola and rediscover together the magic of Christmas.
